

**Österreichische Gesellschaft für Hals-,
Nasen- und Ohrenheilkunde,
Kopf- und Halschirurgie**

To our international friends and guests

Salzburg, 10th of February, 2010

Dear colleagues,

it is my great pleasure to invite you to join us for the 54th Austrian ENT-Congress from 15th to 19th of September 2010 in Salzburg. With the motto "Form and Reconstruction" we will present an interesting program in cooperation with national and international guest speakers from different areas of otorhinolaryngology. Cochlear implants, plastic surgery, rhinology and oncology are the topics that we will focus on.

We will also offer a broad range of advanced education through roundtables, invited speakers and scientific lectures as well as courses. This advanced education will be embedded within the framework of the European Academy.

For the first time, English is the official second congress language, so that all our international guests can actively participate in the scientific program. To present the whole range and innovative strength of our specialty to a broad public, there will be a special program for patients and interested visitors.

The congress site, the new University Mozarteum, certainly offers interesting architecture and perfect acoustics for our meeting. With the scientific program and social events, we hope to offer you and your company some interesting, instructive and joyful days in Salzburg.

Looking forward to your active participation

With best regards

Prim. Univ. Prof. Dr. Gerd Rasp
President of the Austrian Society of Otorhinolaryngology,
Head and Neck Surgery

Präsident
